## RULES

- Only registered teams will be allowed to share their game applications.
- The team will be able to work on their project from 28th September onwards to 6th October.
- Once registered all team members must join the WhatsApp group as all schedule announcements will be made on it.
- The WhatsApp group will also be used to share resources on how to make games to help newer developers such to encourage more participation.
- A minimum of 1 level of your game must be completed.
- You can create either one of these types of games:  
Mobile  
PC (Windows)  
Web  
Augmented reality and virtual reality applications are also allowed
- Your games will be judge according to the following criteria:  
Theme  
Core gameplay  
Asset diversity  
Technical implementation  
Presentation
- You will be allowed to use any individual assets, but you cannot use any full scene or full game prefabs. (E.g., A premade house model is acceptable, but a full scene with the player and environment already made is not.). For further details you can contact the coordinators.
- Once completed you must share the link to your game application to us using any online storage service (e.g., google drive) before 7th October 2021 10:00 a.m.
- Then on the very same day we will evaluate and pick the few best projects and they will have to explain a little about their game on the 8th of October 2021 will the judges try out their games.
- The winners will be announced on 9th October.

★ **Note** Decision taken by Co-Ordinators will be final in case any discrepancies!
